## Medical Report

### To whom it may concern.

**Name:** Ayan Osman Mohammed

**Age:** 22 years old

**Sex:** Female

The above named patient has an open healed wound on the right maxillary area involving the upper jaw, hard palate and right nasal nare .This was sustained as a child after she was shot at during the 1988 Somali civil war. It's a clean wound with no discharge, but it has disfigured her face and she has difficulty eating food and taking fluids.

**Recommendation:** She is recommended for reconstructive surgery which services are not available in Somaliland.

Any assistance rendered to her is highly appreciated.
